# VIGIL LIGHT

Candle  
insert

### 3 Solid Post for Support

The three solid post are spaced around the lenses equally and attached to the top and to the bottom for additional support while providing an elegant design.

### A Stay in Place Ground Stake

A flanged ground stake designed to stay in place and to keep the memorial light upright. The off-center ground stake permits the light to fit flush along the base of a monument or to stand independently by itself. Also included is the vase mount adaptor to be used with the 7" liner.
